

**CITY OF CUDAHY
NOTICE OF PUBLIC HEARING**

NOTICE IS HEREBY GIVEN that the City Council of the City of Cudahy will hold a Public Hearing on November 17, 2020, at or about 6:30 p.m. conducted telephonically and electronically pursuant to the State of California Executive Order No. 29-20 to consider an increase to solid waste fees in-order provide recycling and organic waste recycling services to commercial businesses and multi-family dwellings subject to California State Laws AB 341and Mandatory Commercial Recycling and AB 1826.

Teleconference phone number, meeting ID and/or password will be provided on the city council's agenda posted on the city's website not less than 72 hours prior to the meeting.

Adjustments to current solid waste service fees were negotiated between the City and Consolidated Disposal Services, LLC, DBA Republic Services (CDS) primarily as the result of increased costs of service due to significant changes in State law mandating new or enhanced City programs governing CDS's solid waste and recycling collection services in the City.

Assembly Bill (AB) 1826: Mandatory Commercial Organics Recycling requires businesses (including multifamily residential dwellings that consist of five or more units) to recycle their organic waste on and after April 1, 2016, depending on the amount of waste they generate per week. This law also requires that on and after January 1, 2016, local jurisdictions across the state implement an organic waste recycling program to divert organic waste generated by businesses, including multifamily residential dwellings that consist of five or more units. Organic waste means food waste, green waste, and landscape and pruning waste, nonhazardous wood waste, and food-soiled paper waste that is mixed in with food waste. AB 1826 phases in the mandatory recycling of commercial organics over time.

Assembly Bill (AB) 341: Mandatory Commercial Recycling requires businesses that generate more than four cubic yards of solid waste per week, and multifamily residential dwellings that consist of five or more units, to arrange for recycling services. There are increased costs associated with meeting the requirements of AB 1826 and AB 341.

If approved, the affected solid waste service rates shall be adjusted by nine and nine-tenths percent (9.09%) effective December 1, 2020.

All interested parties are invited to attend said hearing and express opinions or submit evidence for or against the proposed increases. Any person who wishes to object to the matter should file a written protest with the City Clerk by the following methods.
